Professional Summary

Motivated and detail-oriented undergraduate Data Science student at SLIIT with strong skills in Full Stack Development, Data Analytics, and Business Intelligence. Experienced in developing web applications and analytical systems using MERN Stack, Java, Python, SQL, Power BI, and R Studio. Passionate about solving real-world problems through software engineering and data-driven decision-making. Seeking opportunities in Full Stack Development, Data Science, and Business Analytics roles to apply technical expertise and continuously grow in the IT industry.

Education

Sri Lanka Institute of Information Technology (SLIIT)

Present

BSc (Hons) in Data Science – 3rd Year Undergraduate

G.C.E Advanced Level (A/L)

Mathematics Stream

G.C.E Ordinary Level (O/L)

Technical Skills

- **Programming Languages:** Python, Java, JavaScript, TypeScript, R
- **Frontend Technologies:** React.js, Next.js, HTML, CSS, Bootstrap
- **Backend Technologies:** Node.js, Express.js, Nest.js, REST APIs
- **Databases:** MySQL, MongoDB, SQL Server
- **Data Science & BI:** Data Warehousing, Data Analytics, Power BI, R Studio, Google Colab, Excel
- **Tools & Platforms:** Git, GitHub, Apache Tomcat, VS Code, Visual Studio, Figma
- **Other Skills:** AI/ML Concepts, Business Intelligence, Analytical Thinking

Projects

Mr Taxi – Car Rental Web Application

1st Year – 2nd Semester

- Developed a complete car rental web application under the IWT module.
- Implemented responsive frontend interfaces and backend functionalities.
- Technologies Used: HTML, CSS, JavaScript, PHP, MySQL

Online Event Planning System

2nd Year – 1st Semester

- Developed an online event planning management system under the OOC module.
- Designed event handling, user management, and database functionalities.
- Technologies Used: Java, HTML, JavaScript, Bootstrap, MySQL, Apache Tomcat

Eco Cycle – Plastic Bottle Recycling System

2nd Year – 2nd Semester

- Developed a MERN Stack-based recycling management platform under the OOP module.
- Implemented inventory, collection, and recycling management features.

- Technologies Used: MongoDB, Express.js, React.js, Node.js

Business Analytical Project

3rd Year – 1st Semester

- Conducted business analytics and visualization project under the DWBI module.
- Created dashboards and analytical reports using business intelligence tools.
- Technologies Used: Power BI, SQL Server Management Studio, Excel, VS Code, Visual Studio

HR Analytical Research Project

3rd Year – 1st Semester

- Conducted analytical research on “Transparent Decision-Making Improves Employee Trust” under the TPSM module.
- Analyzed secondary datasets and generated statistical insights.
- Technologies Used: R Studio

Certifications & Achievements

- Dean’s List – SLIIT (1st Year – 1st Semester)
- Python for Beginners – University of Moratuwa
Certificate ID: HA12S9Kb58
- Web Design for Beginners – University of Moratuwa
Certificate ID: FLXNbMyy8H
- Successfully Completed MongoDB Atlas Administrator Path Course

Languages

- English
- Sinhala
